

Cegesoft® Peel

The eco-friendly and gentle exfoliant

Cegesoft® Peel is a spherically shaped wax bead that provides a gentle and mild exfoliation. Mainly derived from natural and renewable resources, **Cegesoft® Peel** is a readily biodegradable and environmentally-friendly alternative to non-degradable beads and sharp-edged abrasives.

Mild to the Environment

Natural origin content: 95% (ISO Norm 16128-2)

Readily biodegradable (OECD 301)

Suitable for rinse-off concepts acc. to EU Ecolabel, Nordic Ecolabel, Bra Miljöval

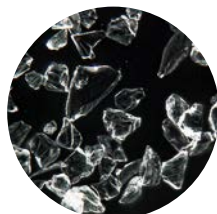

Mild to the Skin
